

# Data Engineering Micro- credentials

Level 5

# 5

# Overview

ALS and Cardiff Metropolitan University have partnered to deliver the following 20-credit micro-credential course in Data and Knowledge Management. Each course will be delivered online in the evening, providing an opportunity to study outside the workplace.

## Programme units

Title	Level	Credit
Data & Knowledge Management	5	20

## Benefits of the programme

The micro-credential course comprises 20 Higher Education credits each and can support progression from the Level 4 Data Analytics Diploma to the Level 5 Data Engineering qualification. Each micro-credential course can be used as Recognition of Prior Certificated Learning (RPCL) to earn your credits, should you wish to progress your study to the Level 5 qualification.

**Each course allows assessment to be tailored to your work-based learning.**

## The micro-credential on offer:

### Data & Knowledge Management

This module introduces students to the theory underpinning information, data and knowledge management. It provides the student with the ability to evaluate and apply the methodologies, tools and techniques used in the development of databases and the management and analysis of data, including relational, non-relational and next-generation technologies.

### Course Delivery

**This is the course delivery information for both programme units.**

- 1 x 2 hour Induction

- 12 x 3-hour sessions delivered online (Teams)
- Work-based assessments
- Assessment and course resources via VLE (Moodle)

## Requirements

- GCSE or Equivalent A\*-C Mathematics and English
- Relevant work experience

## Software

Full access to the following standard software's/websites is essential for the programme study:

- **Microsoft Teams**
- **Microsoft Excel**
- **OneDrive**

Full access to the following bespoke software and all the libraries:

### Links
